**Declaration:** Prepared by Vertima  Self-declared  Third party

**Ingredients inventory threshold:** 1,000 ppm

**Full disclosure of intentional ingredients:** Yes

**Full disclosure of known hazards:** Yes

#### Hazards associated with the product ingredients:

This HPD Standard describes a declaration of product content and direct health hazards associated with exposure to its individual contents. The Declaration is not an assessment of risks associated with actual use of the product. It does not address the potential health impacts of substances used or created during manufacture that do not appear in the final product as residuals, nor substances created during combustion or other degradation processes.

#### VOLATILE ORGANIC COMPOUNDS (VOCs)

The paint and all adhesives are applied during the manufacturing of French Doors. In the category of products presented below, the value refers to the VOC content of paint and adhesives in their liquid state.

##### Adhesives

Manufacturer	Type	Product name	VOC content
Dural Division Multibond inc.	Adhesive	G-2408	3.0 g/L
Dural Division Multibond inc.	Adhesive	G-2424	1.6 g/L
Dural Division Multibond inc.	Adhesive	G-2449	1.9 g/L

##### Paints

Manufacturer	Type	Product name	VOC content
Akzo Nobel	Water-based primer	White Aquaprime 650-0006	30.0 g/L

Validated Eco-Declaration – Emissions and Volatile Organic Compounds (VOCs)  
Methodology: validation of documents attesting VOCs emissions.

### TECHNICAL PERFORMANCES

#### WARRANTY

Our doors requires particular attention and specific care. All doors are constructed with a finger-jointed pine core and a layer of superior quality veneer for more strength and durability. Wood is a natural product, and your door could be subject to contraction and expansion when exposed to varying temperature and humidity fluctuations. For these reasons, our warranty is conditional with the procedures described in: <http://www.portesmilette.com/Content/Documents/en/Guides/Warranty.pdf>

### MANUFACTURER'S ENVIRONMENTAL MANAGEMENT PROGRAM

#### MANUFACTURER'S COMMITMENT

Always in order to meet the expectations of their clients, who are at the heart of each of their actions and decisions, Milette Doors pays particular attention to the choice of their suppliers. Milette Doors takes time to validate whether their values and goals match those of Milette Doors. Thus, they ensure that the wood used for each door they make comes from renewable resources.

Milette Doors bets on the reuse of materials and products to eliminate their need for fossil energy for production, to make carbon neutral emissions of greenhouse gases. Milette Doors also contributes to the reduction of raw materials and waste through the recovery of plastic packaging waste, wood and glass particles, treatment and processing of waste solvents as well as the maximum use and recycling Of paper from entirely recycled fibers.
